The address of the hotel is the following:

You can easily find it on Google Maps. Here is how the entrance looks like:

Once you reach the entrance door, to your left you will find the MasterLock box:

Your key is inside it. Drag the black holder to see the lock figures. Put the code (will be sent in advance) into it and drag the lock down as on the photo above. Use the key to open the front door and go straight to the staircase. Corridor signs will help you find your room.

If you have breakfast included, please mind it starts at 8 am. In the morning please see reception to check in. We hope you sleep well and see you in the morning! 😊
